

Thushan Vithana

Software Engineer - Azend Technologies

Colombo, Sri Lanka | thushan.v@azendtech.com | github.com/thushanvithana

Summary

Full-stack software engineer crafting fast, elegant products with .NET, React and Next.js - where engineering precision meets expressive, tactile interfaces.

Experience

Associate Software Engineer - Azend Technologies (2024 - Present)

ASP.NET Core APIs, Entity Framework data layers, React + TypeScript frontends, Docker deployments to Azure and Fly.io; testing with xUnit and NUnit.

Full-Stack Developer - Freelance & Open Source (2022 - 2024)

Delivered MERN-stack applications end to end; built Scholar, a school-management platform on React + .NET.

Skills

C#, ASP.NET Core, Entity Framework, SQL Server, Azure, Docker, TypeScript, JavaScript, React, Next.js, Node.js, MongoDB, xUnit, NUnit, Git, REST APIs

Selected Projects

Scholar Web App - school-management platform (React, Material UI, C#/.NET)

MERN Stack Platform - full-stack JavaScript application

Hotel Management System - C++ design-pattern architecture exercise

Smart Task Manager - C# service layer with a JavaScript frontend
